

MEA Introduction

Daphne Linzell

Project Manager, DMEC

Lead partner MEA

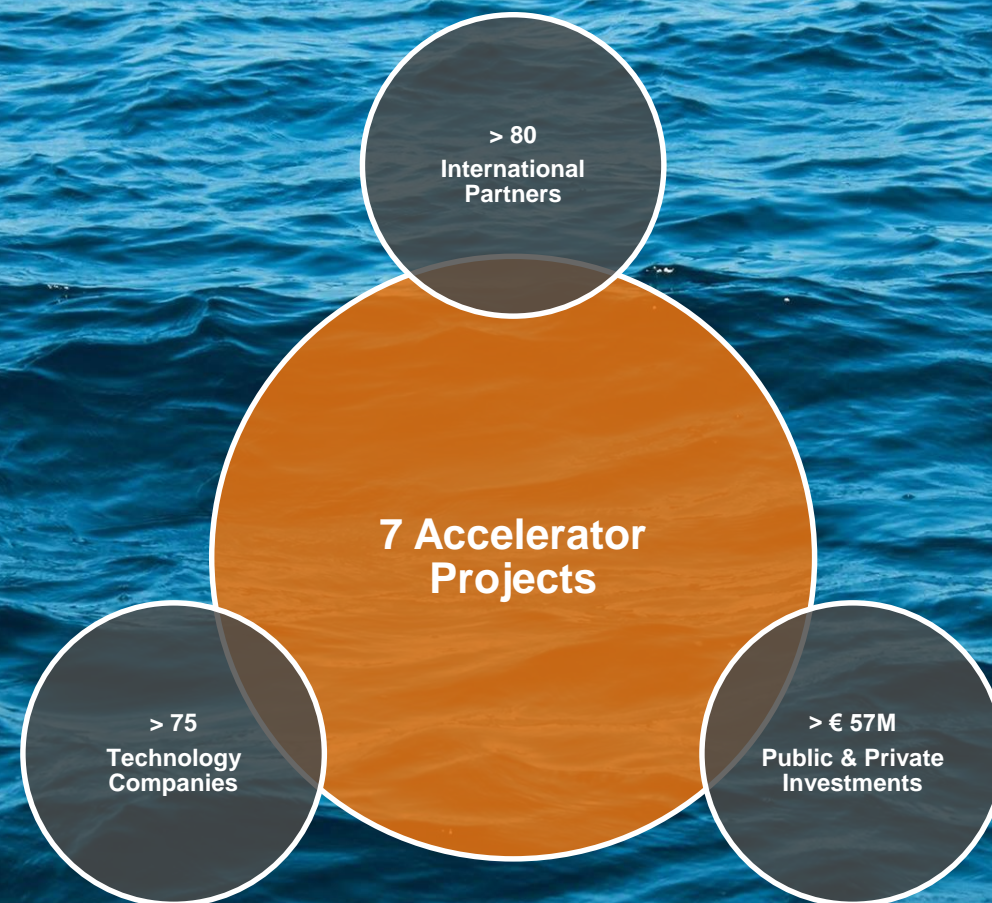

About DMEC

Accelerating Marine Energy Solutions

- Internationally operating **consultancy organisation** in the marine energy sector
- **Team** combining expertise in technology, business, finance, offshore and environmental policy
- **Focus** on Innovation, Markets, Capital & Policy
- Initiating **cross-sectoral collaborations** with innovators in the fields of water, sea defense, deltatech and space

Marine Energy Alliance (MEA)

The Marine Energy Alliance (MEA) is a **European Territorial Cooperation** financially supported by Interreg North West Europe.

MEA aims to **progress the technical and commercial maturity level** of **early-stage (TRL 3 – 4) marine energy technology SME's** with the overall goal of **reducing the risk** of device failure in subsequent demonstration phases.

4 years from 2018 to 2022

6M€ total project budget
3.6M€ in financial support
from Interreg North West Europe

Consortium of 9 partners

MEA partners

The **9 partners** in the MEA consortium (from France, Ireland, the UK and the Netherlands) deliver a **suite of technical and commercial supporting services** that address common challenges which marine energy technology companies face.

What does MEA do?

Two calls for support

Technical and commercial support to >40 Marine Energy concept developers

Cooperating with other ME projects to raise awareness for and share knowledge on certain topics
